

### REMARKS

Claims 1-26 are pending. The claims are amended to correct informalities that by their nature (e.g., antecedent basis, punctuation, typographical error) do not change the original scope of protection.

Sequence identifiers are added to the specification.

Paper and computer readable forms of the Sequence Listing do not add new matter, and their contents are the same. It is respectfully submitted that the attached complies with 37 CFR § 1.821 et seq. Otherwise, prompt notice of any defects in the Sequence Listing is earnestly solicited and additional time is requested to comply.

Form PTO-1449 listing documents for the Examiner's consideration is attached; copies of the non-U.S. patent documents are also attached. As provided by 37 CFR §§ 1.97(g) and (h), no representation is being made that a search has been conducted or that this statement encompasses all possible material information. Furthermore, no inference should be made that this information or the cited references are prior art merely because they have been submitted for consideration. Consideration of the foregoing and enclosures, as well as the return of a copy of the Form PTO-1449 with the Examiner's initials per M.P.E.P. § 609, are earnestly solicited.

Applicants earnestly solicit an early and favorable examination on the merits. The Examiner is invited to contact the undersigned if any further information is required.

Respectfully submitted,

**NIXON & VANDERHYE P.C.**
